NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the porce of the skin and allays fever.

Distinctive Overcoats for Men at Twenty Dollars.

Quite appropriately is it termed a "sad" iron since the deception to which it has been made a party identifies itself with far too many of the ready-for-service overcoats which the average shop offers, particularly those at a modest price. To the presser's iron, our overcoats at twenty dollars owe absolutely nothing. From the most minute integral part upon which the garment depends for a permanent form, to he cut and style which insure its character and individuality, the power of the cleverest tailormen's talent is exercised. The collection includes box models 44, 46, 18, 50 and 52 inches long, tourist models, single or double breasted, with or without belt, paddocks and paletot overcoats in an extensive variety of fabrics and designs.

#### Distinctive Suits for Men at Fifteen Dollars.

If it were not for the moral responsibility which we assume with every garment that has our label to identify it we, too, might be content to follow the line of least resistance and accept for our stocks the garments which the general market affords. It is the exacting standard that we have established which compels us to maintain our own organization of tailormen. Since our business concerns itself with suits hat cost as much as fifty dollars, none but masters of the craft find a place in our shors. To that condition our suits at fifteen dollars owe their infinite superiority. They are the handicraft of the same tailormen, and cut to the same patterns and models. If another shop offer suits with the character and distinctiveness that mark ours the price must of necessity be twenty instead of fifteen dollars.

Six single-breasted models in twenty distinctive styles of fabrics. Four double-breasted models in sixteen distinctive styles of fabrics.

Embracing cheviot, thibet, worsted, cassimere, tweed and winter-weight homespun in a most exhaustive collection of the season's most exclusive designs and colors.

FOR FRIDAY AND SATURDAY.

### An Important Sale of Scarfs for Men.

Special at 55c. Regularly \$1.00 and \$1.50.

Five thousand English Squares, Tecks and Four-in-Hands, of rich silks, in such weaves as Matelasse, Armure Oriental, Rep Raye, Jacquard Unit, Barathea Pointe, Soie de Couvre, Peau de Soie, Satin Duchesse and Gauze de Paris. If the names do not impress you, the scarfs will. The designs have not only good taste and exclusiveness, but diversity, as well, to commend them.

\$1.50 and \$2.50 Sweaters for Men, Special 85c.

The belated season has influenced one of the best-known mills to release their reserve garments—they lacked the courage to hold them for a possible demand Since we have the means to create one, we dared take about two thousand of their all-wool and worsted sweaters, in plain and fancy weaves and colors, which in the regular course of business would cost \$1.50, \$2.00 and \$2.50. They are offered for Friday and Saturday at 85c.

FOR FRIDAY AND SATURDAY.

Buby Twenty-four Days Old.

Mrs. Wieland is an advocate of the mental science school, and when her baby, which was twenty-four days old, was taken with pneumonia she treated it with her mind, believing that she could have considerable influence over its ills. She also called in Dr. George D. Houghton, of Albany, as her belief does not embrace the entire absence of medical attention.
